About This Game

Are you ready to play a adorable tower defense game?
Miniature TD provides unconventional experience for you.

Build towers to defend your base from cute monsters.
Use the Oculus Touch to grab a tower and place it on the floating map.

Don’t passively watch the towers – pick a weapon and join the battle yourself. Use a flamethrower to fire explosives at the monsters, or use a hand cannon to bombard the enemy wave. Use the magnifying glass to inspect the battleground.

There are three modes to play:

Classical mode : Reminiscent of a traditional tower defense game, the classic map has two entrances and one exit. You should defeat the surging enemies in dark dungeon. The map has several curved paths, so place your towers strategically!

Endless mode : : See how long you can last against an endless wave of monsters. It’s important to eliminate monsters swiftly before their numbers build up. Succeed by taking advantage of both long range and short. range towers.

In addition, infinite wave mode is prepared for player that monster’s HP is increasing step by step when all stages are cleared. Challenge your limitation!

This is the best TD game I have played in a very long time, also super addictive please support this Dev very good job.. While the game is indeed quite hard, I've very much enjoyed playing it. Still trying to beat the first level but getting closer and closer to wave 23. It would be nice to be able to scale the map up so you feel like you are really there.. Bad! i did not like it way to many bugs lagy and boring no good pictures missleding WANT MY MONEY BACK STEAM
